A NOTE FROM DR. NICHOLSON

2021 is half way over!
What happened to 2020? Where did the time go?
We couldn't have gotten through this past year without the help of our patients and parents. Nothing seemed to be ideal and I thank you all for your cooperation.
When school returns in the fall, I anticipate opening the reception room and run the Brace Bus as normal.
If you ever need anything from me or my team, don't ever hesitate to contact us!
Be sure to follow us on Facebook and/or Instagram for updates along the way.

NEW TECHNOLOGY COMING SOON
Nicholson Orthodontics to be impression free

Dr. Nicholson has always taken pride being on top of the latest orthodontic technology. With that being said, we are excited to announce that our office is taking steps to be **100% impression free!**
Nicholson Orthodontics soon will be using The Envision One Dental 3D printer to replace impressions. This means less time in the chair for our patients and no mess!

No more gooey moulds
No more uncomfortable impressions

Quick and easy painless scan
3D imaging ready to go

The 3D printer can print models, retainers, splints and so much more!!!
We are excited to add this awesome technology to our practice!

Nicholson Orthodontics
For Your Best Smile

Nicholson Orthodontics Invisalign® Provider for decades!

There's never been a better time to straighten your teeth with the most advanced clear aligner in the world. Our office is proud to be a certified Silver Provider of Invisalign® clear aligners, which give you a clear, convenient and comfortable option to achieve the smile you've always wanted.

Why Invisalign Clear Aligner Therapy?

- **Proven results**
- **Better fit**
- **Effective**
- **Virtually invisible**
- **Comfortable**
- **Convenient**

invisalign® | teen provider

invisalign® PROVIDER

What to expect:

At your initial consultation, we will discuss your orthodontic needs and evaluate whether Invisalign treatment or braces is right for you. If so, we will use an iTero® digital scanning system to create fast, precise 3D digital images of your teeth. Then we will map out a treatment plan, including the exact movements of your teeth and how long your treatment will be. T

Invisalign clear aligners are custom-made aligners made with proprietary SmartTrack® material. They're virtually invisible, so most people won't even notice you're wearing them during your teeth straightening.

Wear your Invisalign clear aligners 20 to 22 hours a day for the best results, and take them out only to eat, brush, and floss.

Your teeth will gently and gradually shift into place. We may recommend that you begin wearing a new set of aligners every week with checkups every six weeks or so.

To find out if Invisalign is right for you or your teenager- call our office to schedule a complimentary consultation.
